

Valued Auto Tint Customers:

During the COVID-19 outbreak, we want to ensure you that **NONE** of our employees are sick, nor showing any signs or symptoms of the virus! As a small business, we value each of you and your patronage. We will remain open during this time by appointment only, with drop off and pick up of your vehicle only, as our lobby is closed off and there is no waiting while we service your vehicle. We request only 1 person at our counter area at a time and please maintain proper safe distance while conducting your transaction.

We want you to be confident that we are taking extra precautions to ensure that our facility is clean and sanitized multiple times throughout the day. Besides, wiping down all surfaces with Disinfecting wipes, we also use hand sanitizer after each transaction, and wash our hands thoroughly throughout the day, in addition to wearing face shields, and latex gloves when conducting transactions. We are also going to spray your car keys off with an antibacterial spray, when you give them to us. We will also disinfect any part of your car that our employees come in contact with (Door handles, window switches, steering wheel, seats, etc.), before and after we work on it. We will also use an ozone sanitizer inside your vehicle before and after we install the window tinting. We request that you remove all personal items from the vehicle prior to bringing it to the shop.

We also ask that if you or anyone in your household are sick please reschedule your appointment, for the safety of our employees and your fellow customers. We will gladly get you back into the schedule when you are feeling better.

We thank you for your cooperation and understanding.
